THE UFA/FDNY RIDES WITH MAUI FIREFIGHTERS

Five weeks before the fire, I happened to be in Maui riding down Front Street with my kids admiring the historical town of Lahaina, which has since been reduced to a pile of rubble, much like the events of September 11 and Hurricane Sandy this community was devastated. During those times, the Maui Firefighters along with many members in the IAFF raised money and donated time to help us respond and recover and allow our families to get back to some sense of normalcy. My hope is that in their time of need we can respond and do our part, as small as it may be, to help them be able to move forward and to get their lives back to some sort of normalcy.

In November, the Hawaii Fire Chiefs have a conference, and my hope is to be able to raise the money before then, so that we could present them with a check during the conference on behalf of the members of the FDNY UFA, and the New York Firefighters Heart Foundation. 100% of the money raised would go directly to the families with zero administrative cost to the cause. It is also my hope that this donation, and its momentum, could stretch beyond the FDNY and Spread throughout the country so that we can help each and every one of these firefighters rebuild their homes.
